“Margaret Hope has managed to do in print what she does so well on the platform . . . and what the readers of this book are enabled to do – connect with an audience! With an abundance of good sense advice and a superabundance of personal stories, she keeps her readers turning the pages in eager anticipation of the next great idea, illustrated by the next great story from life. You will love this book, written by someone who loves and lives the platform.”

*William D. Thompson, Ph.D., Author
